He was introduced by President Breeden and read his message.

GOVERNOR'S MESSAGE.

Gentlemen:

As a citizen of Utah I congratulate you and myself that it is more than probable in welcoming you, which I heartily do, that it is my pleasure to greet our last Territorial Legislative Assembly.

The early passage of the Enabling Act for the admission of the Territory into the Union, which now seems assured, will require the assembling of a convention which will formulate the fundamental principles that shall control the new State, and the meeting of a new Legislature that will follow, to readjust our laws to meet the changed conditions, admonish us of the propriety of confining present legislation to matters of urgent necessity, and the taking of preliminary steps only in the inauguration of new subjects of importance, which will require time for their completion.

Believing in the wisdom of such a course, I have endeavored to so confine my recommendations.

UNIVERSITY AND AGRICULTURAL COLLEGE.

The question of the advisability of consolidating and making one institution of the University of Utah and Agricultural College, has been the subject of much recent interesting discussion.

The present site and ground for the University are considered unsuitable and insufficient, and a bill looking to obtaining a more suitable location on the Fort Douglas Military Reservation was introduced in the last Congress and re-introduced in the present Congress. It is expected that favorable action will be taken when the bill is reached. The pending statehood bill provides for the donation of public lands to the University and to the College. Both institutions have been established by and fostered and nurtured by liberal appropriations from the Territory, and each is in successful operation. In view of the existing situation and the grave importance of the question, I would respectfully suggest the wisdom at this time of making only necessary appropriations for the successful carrying on of

the respective institutions under present conditions, thus affording ample time for a complete investigation, and thorough discussion of the question of consolidation.

COMMISSION ON IRRIGATION.

In my message to the Legislative Assembly six years ago I submitted the following:

“The great value of water to our people, and the prosperity to flow from a complete utilization of our supply, is readily recognized by all. I recommend the appointment of a commission of three persons, one of whom at least shall be required to be a competent civil engineer, skilled in his science; the commission to be charged with the duty of making a full and exhaustive investigation of the question, and required to report to the next Legislative Assembly the result of its labors, with such suggestions as it may be enabled to make for the inauguration of a comprehensive and thorough system of irrigation for the use of our reclaimed and the reclamation of other lands. Necessary appropriations for this purpose I recommend.”

Time, and the agitation of, and the increased interest in the question of irrigation, has confirmed me in the view that much good would come from the action of such a commission, and I respectfully ask your favorable consideration.

CAPITOL BUILDING.

Being advised of the request of the Capitol Commission (its report will follow later) for an appropriation of \$125,000 to begin the construction of the Capitol by building a wing which will furnish necessary offices for the present, in my opinion it should be granted.

It would be judicious economy to make the saving that would result from doing so. The rents that would have to be paid to secure necessary and suitable accommodations for the different branches and offices of the Government, would be much more than the interest upon the investment. The building would provide more ap-

propriate and better quarters in which the business of the people could be transacted than could possibly be obtained elsewhere. A permanent building for the purpose must sooner or later be erected, and the advantages to accrue to our material men and laborers to prosecute the work are obvious.

MONUMENT TO BRIGHAM YOUNG.

A Memorial Association has been inaugurated by a number of our citizens to erect a suitable monument in honor of Brigham Young. They have contracted with a Utah artist, who has furnished the design for, and has in part completed a great work. It would seem that no more fitting and appropriate site could be selected for the erection of such a memorial to Governor Young than the Capitol grounds of the Territory of which he was the first Governor and of the State of which he was the pioneer statesman and founder.

I recommend that you take such steps as you may deem advisable to obtain the desired end.

A MILITIA RECOMMENDED.

A properly organized militia is almost a necessity of a well ordered free commonwealth. Our young men, for several years, with commendable patriotic manliness have been ready and willing to assume the duties and responsibilities of service and have only awaited the direction and authority of the law-makers to give us a military establishment which will be the pride of the inter-mountain country. Of the appropriations made by the general Government in aid of the State and Territorial militia, \$75,057.05 had been allotted to this Territory up to June 30, 1889, and none since that time. In view of our early admission as a State into the Union, let us by prompt enactment of a law enable our people to avail themselves of their desires and opportunities to establish a military force, and thus, as in all other respects, show that our Territory is well prepared and fitted for admission into the Union of States.

EIGHT HOURS A DAY'S WORK.

Entertaining a firm conviction that the happiness of mankind would be greatly contributed to by lessening the hours of labor, I earnestly recommend in the interest of this great reform, an act providing that eight hours shall constitute a day's work on all public works.

AMEND AND REVISE THE LIEN LAW.

Our mechanics' lien law is imperfect and needs revising and amending. I commend to your wisdom the preparation of a wise and just measure that will fully protect the material men and laborers.

TERRITORIAL WARRANTS SHOULD BE KEPT AT PAR.

For years the managers of public institutions of the Territory have been compelled, in order to sustain them, to borrow money at a high rate of interest and without authority of law to do so.

The holders of Territorial warrants have been compelled often to submit to heavy discounts to realize on them. Such a grievous and shameful condition should be promptly remedied and no longer tolerated. There is no reasonable excuse why all the debtors of this rich and prosperous Territory should not be promptly and fully paid, and its warrants be at all times as good as coin.

REPORTS OF PUBLIC OFFICERS AND INSTITUTIONS.

The following reports made to the Governor I lay before you:

The Auditor of Public Accounts, the Treasurer, the Librarian, the Sealer of Weights and Measurers, the President and Directors of the Deseret Agricultural and Manufacturing Society.

In due time you will receive reports from the Regents of the University of Utah, the Trustees of the Agricultural College, directors of the Insane Asylum and trustees of the Reform School informing you of the progress, condition and the needs of the respective institutions.

DELAYED LEGISLATION.

I earnestly request that the Assembly may so dispose of business before it that ample time for investigation and deliberation on all measures sent them may be given to the Governor. It is too often the case that the most important legislation is crowded into the last days of the session and must be hastily and inconsiderately disposed of.

Animated, as I do not doubt we all are, with the great purpose of serving the people well, I invoke God's blessing upon our labors, that they may redound to his glory and the people's good.

CALEB W. WEST.

Executive Mansion,
Salt Lake City, Utah, January 8, 1894.

Gentlemen—I enclose herewith, for your consideration, a copy of preamble and resolutions which were unanimously adopted by the Board of Directors of the Salt Lake Chamber of Commerce at a meeting of that body held on the 13th inst.

Very respectfully,
WILL SNYDER,
Secretary.

WHEREAS, There is now pending in the Lower House of the Territorial Legislature, a Bill providing for the taxation of debts secured by mortgages and trust deeds on real and personal property; and

WHEREAS, The burden of such taxation would be borne, not by the local capitalists and money-loaners, but by the borrowing classes—the workingman who borrows sufficient funds wherewith to build a home and the enterprising citizen who is interested in the progress, development and uplifting of our Territory; and

WHEREAS, The enactment of such a law would be unjust to our citizens and injurious to Utah's interests, and would place the capital necessary to the development of our resources beyond the reach of our people, thereby prostrating our industries and retarding universal growth and prosperity; therefore, be it

Resolved, That the Board of Directors of the Salt Lake Chamber of Commerce, in behalf of the members of said chamber, enter our earnest protest against the passage of said bill; and be it further

Resolved, That a copy of these resolutions be forwarded

REPORT OF STANDING COMMITTEES.

Mr. Speaker:

Your Committee on Claims and Public Accounts having duly considered sundry claims, beg leave to report as follows:

That House Claim No. 1, claimant, R. R. Tanner, for \$33, be allowed.

That House Claim No. 5, claimant, H. G. McMillan, for \$104.49, be allowed.

S. W. SEARS,
Chairman of Committee.

Received.

House of Representatives,
Committee Room,
January 18, 1894.,

Mr. Speaker:

Your Committee on Judiciary having duly considered House Bills Nos. 29 and 31, beg leave to report as follows:

That they recommend that House Bill No. 31 be referred to the Committee on Public Health.

That House Bill No. 29 do not pass.

VARIAN,
Chairman of Committee.

Received.

Committee Room,
January 18, 1894.

Mr. Speaker:

We, a majority of the Council Committee on Printing but a minority of the Joint Committee on Printing, ask to present a minority report on the matter of awarding the contract for public printing, and represent that in accord-

ance with a resolution of the Council, an advertisement was inserted in the papers soliciting proposals for the public printing, in answer to which six bids were received, numbered 1, 2, 3, 4, 5 and 6.

On opening the bids it was found that bids three and six were much below all others; that bid number five was accepted by the majority report, which was 13 per cent. higher than bid number three, and over 15 per cent. higher than bid number six. From the majority report we dissent.

Having solicited bids from the public, and parties having acted in good faith in offering their bids, we do not see how any discrimination can be made in favor of anyone, because of any conditions that may surround him. And further, as no sect, party or organization were barred from bidding, we claim it is very unfair to impose conditions upon them afterwards not contained in the advertisement.

We, therefore, recommend the award for the public printing be made to bidder No. six (6), for the following reasons:

1. That we believe he is amply prepared to do the work promptly, effectually and to the satisfaction of the Legislature.

2. That his proposed security is unexceptional and sufficient.

3. That the bid of No. 6 is \$9.70 per hundred pages of minutes less, and \$23.50 per hundred pages of pamphlets less than the bid of No. 5, recommended by the majority of this Joint Committee.

J. E. BOOTH,
JOHN SEAMAN,

Mr. Powers moved to lay on table.
Adopted.

COMMITTEE ON ELECTIONS.

Committee Room,
January 18, 1894.

Mr. Speaker:

Your Committee on Elections, to whom was referred the matter of the contest of Hugh M. Dougall for the seat in this house now held by Alexander Robertson under and

in virtue of a certificate of election issued by the Utah Commission, beg leave to report as follows:

Under agreement of counsel for the respective parties, a special commissioner, E. A. Wedgewood, Esq., of Provo, was appointed to take testimony at various places within the Eleventh and Twelfth Legislative Districts. This testimony, with other papers, was duly presented to the Committee, and after argument by counsel for the parties, the question was considered at length by your committee.

The parties agree, and the Committee finds, that Springville City and Springville Precinct have had, since September 4, 1883, until the formation of Mapleton Precinct, the same boundaries.

That Spanish Fork Precinct lay south and west of and contiguous to Springville Precinct up to the time when Mapleton Precinct was created.

That in 1891, the Utah Commission, in pursuance of law, re-districted the Territory of Utah for Legislative elections.

That Spanish Fork Precinct was assigned to the Twelfth Legislative District and Springville Precinct was assigned to the Eleventh Legislative District.

That in the year 1892, the county court of Utah County, wherein said precincts are situated, created a new precinct and named the same Mapleton. Said Mapleton Precinct was formed from territory lying within the afore-said Springville and Spanish Fork precincts, that is to say, of territory partially within the Eleventh Legislative District and partially within the Twelfth Legislative District. Thus the county court of Utah County re-districted the Territory of Utah for Legislative elections if the results following their said action be confirmed.

But there is no power granted County Courts for such a purpose. The law of Congress (Laws of 1890 and 1891, page 930) provides a method of districting the Territory, and expressly declares that the districts created thereunder shall stand until further provision be made by the Congress. This is the rule laid down by the paramount authority. This Legislature cannot change it, much less should that power be conceded to County Courts. If one such court can thus change the lines of Legislative Districts, all can.

This would open the way for a constant shifting of

Legislative District lines to suit the supposed exigencies of elections in close districts, many of which we have in this Territory.

We find that twenty-five votes counted, returned and canvassed as from the Eleventh District, were cast at the election in question by voters resident in the Territory, south of the line formerly dividing Spanish Fork and Springville precincts, said territory now being included within said Mapleton Precinct.

That said twenty-five votes were cast by voters living within the Twelfth Legislative District, and were without warrant of law cast, counted and returned as a part of the said Eleventh District.

That fifty-seven votes were cast within said Mapleton Precinct at said election, of which the contestant received 15 and the contestee received 42.

That contestant received as returned to and canvassed by the Utah Commission 856, and contestee 858 votes.

Your committee is of the opinion that the twenty-five ballots cast by parties residing within the Twelfth District should be thrown out and deducted from the total number received by the contestant and contestee in said Mapleton Precinct in proportion to the number of votes received by each in said precinct.

This would reduce the contestant's total vote in the District to 849, and the contestee's to 840.

We, therefore, recommend that Hugh M. Dougall be declared by this House entitled to sit as the duly elected Representative from the Eleventh District, and that his name be placed upon the Roll of the House as such Representative.

C. E. ALLEN, Chairman.

No. 35, Amending Section 2158 Compiled Laws of Utah, relating to Liquor Licenses, beg leave to report as follows: That in the opinion of the committee it is not wise to at this time interfere with general laws regulating liquor licenses, and therefore the committee recommends that the Bill be not passed.

The committee are of the opinion that generally the purchaser of personal property can protect himself with the exercise of proper prudence and caution, and that the advantages—if any—to be gained by a law as proposed, are more than balanced by the many disadvantages and the heavy expenses to be imposed on vendors.

INVITATION FROM BRIGHAM YOUNG ACADEMY.

Provo,
January 22, 1894.

To the Honorable the Speaker and Members of the House of Representatives of the Utah Legislature:

Gentlemen—Learning that you intend visiting our city Saturday, January 27th, we cordially invite you to visit the Brigham Young Academy at any time convenient to you during the day.

Most respectfully yours,
G. H. BRIMHALL,
JAMES B. KEELER,
Assistant Principals in Charge.

Invitation accepted with thanks, and time of visit left to pleasure of members.

Mr. Allen presented the following communication:

Murray, Salt Lake County, Utah,
January 20, 1894.

Hon. C. E. Allen:

Dear Sir—Permit me to call your attention to a condition of things that, in my opinion, is deserving of consideration. I refer to the matter of costs for criminal cases in justices' courts. Experience has shown that in a great majority of this class of cases, the defendants have nothing that can be collected in payment of costs, the county courts have refused to pay the bills when presented and the Territorial officials have informed us that no appropriation has been made for such cases. Consequently, the justices, constables, jurors and witnesses have been compelled to give their services without pay.

I therefore respectfully ask you to introduce some measure that will provide for the past expenses of this class of cases, and that will either remove criminal actions from the jurisdiction of justices' courts or provide adequate compensation therefor.

I am, very truly yours,
T. W. RUSSEL.

Referred to Committee on Judiciary.

REPORTS OF STANDING COMMITTEES.

REPORTS FROM COMMITTEE ON JUDICIARY.

House of Representatives,
Committee Room,
January 23, 1894.

Mr. Speaker:

Your Committee on Judiciary, having had under consideration House Bills No. 5, entitled "A bill for an act fixing the time for the redemption of real property sold at forced sale," and No. 19, entitled "A bill for an act to amend Section 3474, Chapter III, Title IX, of the Compiled Laws of Utah of 1888, relating to real actions," beg leave to report as follows:

The question of the power of the Legislature to extend the time for redemption in cases of mortgages now existing, and to grant a right of redemption in cases of trust deeds heretofore executed, has been carefully considered, and the conclusion of the committee is that such authority cannot be lawfully exercised.

As to mortgages, it is believed, that an extension of the right of redemption, as proposed by H. B. No. 5, and in argument before your committee, from six to fourteen months, would so materially affect the obligation of the contract, through the restricting of the remedy, as to render the legislation void.

As to trust deeds, the proposition would seem to be still more clear under the principles laid down by the Supreme Court of the United States in a series of cases. It has been suggested, that, as these last named instruments are not authorized by any statute, but are supported by decisions of the courts, directly or indirectly recognizing them, they would not be within the principle or reason of the rule.

The committee does not concur in this view. The system of giving and taking security through trust deeds has prevailed here for many years. Recognized in many ways in the decisions of the court, the system has become a rule in real property law, firmly imbedded in our jurisprudence. A trust deed is a contract, as much so as if authorized by express statute. Hundreds of thousands of dollars have been loaned to our people upon such securities in good faith and in reliance on their efficacy and force. To burden them with additional restrictions and limitations, even if lawfully authorized so to do, would in the judgment of the committee, be unjust. But no doubt is entertained on this question. The Legislature has not the power. While it is true the inhibition of the Constitution against laws impairing the obligation of contracts, in terms applies only to States, it is believed that all courts, by a just and rational construction, would make the application to Territories as well.

Therefore, the committee recommends that H. B. No. 5 do not pass.

In addition to the foregoing objections, which are applicable also to H. B. No. 19, it may be observed that no sufficient reason appears why trust deeds should be required

to be foreclosed in a court of chancery. The result would be to destroy their peculiar efficacy, and their use as loan securities would be abandoned. The committee is not prepared to say that this result is desirable. It would seem preferable to leave the matter as it is at present, *i. e.*, to the borrower and lender to determine for themselves the kind of security suitable to the necessities of the case. The recommendation, therefore, is, also, as to H. B. No. 19, that it do not pass.

But, the committee is of opinion that the statutory right of redemption should be extended to twelve months in all future cases, and that trust deeds should not be exempted, and herewith report a bill expressing that view, entitled "An act fixing the time for the redemption of real property sold on execution, foreclosure or trust deed sales," with the recommendation that it do pass.

Respectfully,
E. W. TAYLOR,
Chairman Joint Committee on Printing.

Office of Deseret News Publishing Company.

Mesers. Taylor and Parsons, Chairmen of the Committee on Printing of the Thirty-first Session of the Utah Legislature:

Gentlemen—I very much appreciated your call for printing bids, and submitted my proposition in the full belief that the work was to be awarded to the lowest responsible bidder. Becoming convinced, however, that it is the determination of some members of the Legislative Printing Committee to place the work in certain hands, regardless of fairness and economy, I withdraw my bid.

Whenever the gentlemen, either as individuals or a committee, desire work done in a style second to none in the West, at reasonable figures, and by men whose homes and families are here, and whose labors have helped to make it possible for some members of the present Legislature to live here, I will be pleased to render them the service desired.

Yours, etc.,

CONSIDERATION OF REPORTS OF COMMITTEES.

Mr. Allen moved to suspend the rules and receive a minority report of Committee on Memorials.

Adopted, and report, presented by Mr. Nebeker, read as follows:

Mr. Speaker:

The undersigned respectfully presents to the House that he dissents from the report of a majority of the committee to whom was referred H. J. M. No. 5, "A memorial to Congress relative to protective duties on wool."

The reasons for this position on my part are briefly as follows:

First—That this memorial does not represent the sentiments of a majority of the people of Utah; and that the fourth, fifth, eighth, and ninth lines particular are not true. While as a whole the memorial is partisan biased, and not founded on the facts in the case.

Second—There is said to be no argument equal to an existing fact, and this being the case, we have a potent argument for the removal of the wool tariff altogether. At this time wool is lower in the market than at any time since the war, and an attempt to show that this is the result of threatened, rather than existing legislation is not logical. For more than three years the country has had one of the highest, and most proscriptive duties on wool that the civilized world has ever known; and the result, I claim, has been that our manufacturers have been unable to compete with foreigners in any line of woolen goods requiring admixture of fibers. They could not compete, because in paying the excessive rates of duties they were compelled to attach them to the cost to the purchaser, with the effect of so advancing the prices of such goods that a majority of the people could no longer afford to buy them; without customers, the manufacturers could not continue business; and with diminished custom they were compelled to diminish products correspondingly, the natural effect of which was to curtail purchases of domestic wools for want of the foreign article for mixing with them. With a weakened market necessarily came weakened prices; and hence we see one of the reasons why wool has steadily fallen and may not have touched bottom yet. It is more than a coincidence that wool began to fall with the adoption of the McKinley bill, and that the maintenance and enforcement of its exclusive and apprehensive measure have

continued the shrinkage in values; it is an argument whose premises are the antithesis of the memorial to which this relates, showing beyond dispute to any reasonable mind that the result of a high tariff upon raw materials, of which we do not produce enough in either quantity, quality, or variety, is simply a blow to domestic industry to which such measure relates. When we had free wool we had higher prices; a little more than three years of high tariff have all but ruined the wool market and would have cut down the sheep industry generally but for reasons which I here enumerate.

The business of sheep growing is one of the most profitable. The sheep, of all animals of a domestic nature, requires the least care and expense. It does not need to be fed, or housed; two men whose entire cost in Utah does not exceed one hundred (\$100,00) dollars per month, can take care of several thousand head of sheep, so gregarious are they, and so easily transferrd from point to point. Their presence is indeed a menace to our other animals, for the reason that they leave nothing behind them of food value. The losses in the business are comparatively trifling. They increase at a rate which alone would make them the most profitable animate property, and all things considered, are a paying investment even with wool at the depressed price to which it has been brought by the McKinley bill. It is a truism and visible fact that there are no poor sheep owners who make a business of sheep raising.

Why then burden the country with useless oppression at their dictation, when they are so few in number, and after all, are standing in their own light?

Mr. Speaker, let the subject be dealt with, not in the light of rank partisanism, with the hope of securing political capital for future campaigns, but in the light of broad statesmanship and accomplished facts, having in view the greatest good for the largest number.

Let all the people, the sheep owners and wool dealers included, be taken in full consideration, and all receive impartial treatment. In opposing the memorial I aim at this, and this only, and I am sure I voice the sentiments of

a vast majority of the people of this grand and growing commonwealth.

Respectfully submitted,
AQUILA NEBEKER,

Whereas, a large body of grant lands belonging to railroad corporations in the several counties in this Territory, but not pertaining to the operation of their railway is thus assessed by said Territorial Board; and,

Whereas, Large bodies of grant lands belonging to other corporations and individuals are assessed by the Assessors of the several counties; and,

Whereas, Said tracts of grant lands belonging to said railway corporations and said tracts belonging to said other corporations and individuals are all scattered over all parts

of said county and differ greatly in value, one piece from another; and,

Whereas, This manner of assessment of such land partly by said Territorial Board and partly by the Assessors of the several counties leads to numerous errors in omissions in land and double assessments, and also to great injustice in values of the same; and,

Whereas, We believe the Assessors of the several counties are better prepared with maps, statistics, general and personal information to make a correct and even, fair and just assessment of all such lands; and,

Whereas, We believe also the county courts of the several counties for the same reason are better prepared to make a fair and just equalization of said land, each piece with the other and with all surrounding lands; therefore be it

Resolved, That our Representative to the Legislature of this Territory be requested to present to said Legislature a suitable bill for the amendment of said Act of 1892, to Provide for the Assessment of all Grant Lands belonging to railway companies (but not used immediately or pertaining to the operation of their railway), as well as other Corporations by the County Assessors of the several counties in which such grant lands are situated.

House of Representatives,
Committee Room,
February 9th, 1894.

Mr. Speaker:

Your Committee on Manufactures and Commerce, having duly considered H. B. No. 93, A Bill for An Act for the Encouragement of Silk Production and Paying Bounties Therefor, beg leave to report the same with an amendment,

i. e., insert 'which' in lieu of "who" in line 1, section 2, of the printed bill, with the recommendation that as amended the bill do pass. The following statement of the history and results of sericulture in Utah in the past was made officially by the Utah Silk Committee to the General Silk Committee of the World's Fair, and, as it is believed to be a correct statement of facts, is incorporated in your committee's report as a part thereof.

STATEMENT OF SILK COMMITTEE.

At a very early period in the settlement of this Territory, Brigham Young, its founder, became convinced that the soil and climate were well adapted to silk culture; and when Governor of Utah, in 1855 or 1856, ordered a supply of mulberry seed from France, and in a few years fifty acres of mulberry trees were planted out in orchards or groves, some in the suburbs of Salt Lake City and some in Utah County, besides numerous shade trees in the yards and on the sidewalks of the city. From that time mulberry trees have been grown in all parts of the Territory, in nearly every town and village, and they have flourished luxuriantly. It is estimated that there are at least two hundred and fifty acres of mulberry trees in Utah.

Several cocooneries were built, and silk worms were imported from France and Italy, and later were procured from the Agricultural Department at Washington, D. C. Governor Young built a large two-story adobe cocoonery on his Forest farm of mulberry trees, and secured the services of Mr. Bertrand, an experienced sericulturist from France, to take charge of the establishment. The quantity of cocoons raised under his management is not known, but Mrs. Dunion, who succeeded Mr. Bertrand in superintending, raised in six weeks 700 pounds of cocoons, which at that time were worth \$2.00 per pound in France.

Individual efforts were made by women in their respective homes about the same time, and with excellent results, by means of primitive methods. Mrs. Nancy Burrows, formerly of Connecticut, brought mulberry seed and silk worms' eggs from the East in 1858. She planted out mulberry trees, and while waiting for them to grow, when the worms hatched, fed them lettuce, upon which they

thrived well. The following year, 1859, she reeled the silk and wove a dress pattern on a loom made for weaving carpets. This was the first silk dress made in Utah. She also made other articles, and a quantity of sewing silk for her own use. Women from the very first have taken the lead in practical sericulture, and many other women in different places later on made silk for home wear in the same way. Dorinda Robinson, of Farmington, was one of the first to manufacture silk dress goods; one of the dresses made by her from the cocoons is now on exhibition in the Process Department of the Woman's Building in Chicago.

The elegant silk lace fichu presented to Mrs. Hayes (wife of President Hayes, a souvenir of her visit to Utah in September, 1880, was made of pure silk, raised, reeled and prepared in this city by Mrs. Anna Brown. Competent judges pronounced the silk beautiful, and of superior quality.

Hundred of instances could be cited where women have raised from 75 to 100 pounds and more of cocoons, and manufactured the silk for home use and wear, which abundantly proves that the soil and climate are admirably adapted to sericulture; and the many specimens of silk in shawls and other articles now being shown at the World's Fair (but made years ago) clearly demonstrate the fact.

In 1876, a Territorial organization was effected, called the Deseret Silk Association (Mrs. Zina D. H. Young, President), for the purpose of promoting the industry and to successfully establish the enterprise by means of united efforts. Auxiliary associations were formed in several counties, and women in most instances were the active directors and practical workers. Cocoons were raised in large quantities, but the manufacture of silk has not been extensive, because of the lack of suitable modern machinery.

Letters received by the committee from various parts of the Territory verify the statements made in this report, and in a former one, now on file with the Board of Lady Managers.

In St. George, Washington County, 300 miles south of Salt Lake, eleven families raised in two years 1,000 pounds of cocoons, and in Santa Clara, in the same county, four persons raised 82 pounds and twenty persons 750 pounds in the same two years. The best of these were taken by the Department at Washington, D. C.

The handsome silk portieres now in the Woman's Building (every thread of them genuine Utah silk) is evidence of the superior quality and fibre of Utah silk. This silk was raised, reeled and prepared by Mrs. Harris in Weber County. The set of furniture (seven pieces) in the Utah Building in Chicago, is upholstered with the silk made and cocoons raised in Davis County, and is certainly a pure article. The silk flags, scarfs, handkerchiefs, fringes, hosiery, knitting and sewing silk and twist, may also be seen there.

Utah silk was exhibited at the Centennial at Philadelphia, and examined by experts who attested to its excellence. Utah cocoons have been placed on the market in San Francisco and Philadelphia, and pronounced superior in quality.

During one year the wages paid to operators by the Silk Association amounted to \$1,500, and the quantity of raw material worked was 400 pounds, which was valued at \$2,500, while the product in manufactured goods exceeded \$5,500.

Summing up the matter, we can only say that we have in this Territory women accustomed to the work from France, Switzerland, Italy, Germany and England, as well as those who have had experience here, and with some encouragement offered in future many thousands of pounds of cocoons might be raised and manufactured with very little outlay.

There have been over 28,000 pounds of cocoons raised in Utah, averaging in value \$1 per pound, and there are a few power and hand looms now in operation.

Gold and silver medals, diplomas and cash premiums have been awarded to silk producers and workers from year to year at the Territorial Fair.

As before stated, there are thousands of mulberry trees of the *Morus Multicaulus* and of the *Morus Alba* species (which is considered the best,) and together with the soil and climate, they are well adapted as food for silk worms. Disease, which is so fatal in damp climates, cannot be known here. There are hundreds of women anxious to engage in the industry, so that all things seem propitious to the development of an enterprise which ought to result

in ultimate wealth to those who are interested in the work, and a source of considerable revenue to the Territory.

VARIAN,
Chairman of Committee.

Mr. Speaker:

Your Committee on Rules, having duly considered H. R. No. 16, beg leave to report as follows:

A majority of your Committee recommend that said H. R. No. 16, be not adopted.

JOHNSON,
Chairman of Committee.

Received.

House of Representatives,
Committee Room,
February 12, 1894.

Mr Speaker:

Your Committee on Ways and Means respectfully represent that a similar condition financially confronts the present Legislature to that which has attended the last four sessions.

In January, 1888, the Appropriation Bill provided	
for an expenditure for the two years ensuing	
in excess of revenue to the amount of.....	\$177,775 50
In January, 1894, for.....	303,760 81
In January, 1892, for.....	258,343 67
	<hr/>
Making a total of.....	\$740,099 04

To meet these deficits bonds were issued in

1888, First Series for.....	\$150,000 00
1890, Second Series for.....	300,000 00
1892, Third Series for.....	250,000 00
	<hr/>
Total amount of bonds issued,	\$700,000 00

This entire amount has been absorbed in meeting the biennial deficits herein enumerated, leaving a balance for the present Legislature to provide for of \$40,099.04. Your committee have carefully considered every item of expen-

diture necessary to be made, based upon reports received, for the ensuing two years ending December 31, 1895, a detailed statement of which is hereto attached. These items represent the amounts necessary for the maintenance of the Territorial public institutions, the payment of salaries of officers, jurors, witnesses, interest on bonds, contingent expenses, World's Fair Commission exhibits, etc., and to meet claims now being considered by the Committee on Claims and Public Accounts. In this statement your committee have deemed it absolutely necessary to provide that certain salaries should be reduced and appropriations to counties be limited to about fifteen thousand dollars—about one-half the amount appropriated to counties in 1892. In the estimate submitted your Committee have not provided for the appropriation of any sums for the erection or repairs of public buildings, University supplies, bounties, militia, etc., and in anticipating that the revenue from all sources will be the same as last year, there will then be a deficit of about \$295,000.00. Your Committee do not think it would be good policy or correct business financiering to follow the example of our predecessors to meet this deficit by the issuance of bonds. Where such a policy would lead to, if continued, is apparent to all. Your Committee, therefore, recommend that the general tax be increased from two mills to three and one-fourth mills on the dollar on all the taxable property of the Territory. Your Committee having under consideration the new bill providing for revenue will suggest this amendment in reporting said revenue bill to the House, when the propriety of adopting said amendment can be debated and passed upon.

Your Committee further recommend, in view of early Statehood, the Territory having no Capitol Building in which to transact public business, and having to pay out annually large sums of money for the rental of offices, court rooms and halls for Legislative purposes, and for other reasons in part referred to in the Message of his Excellency, Governor Caleb W. West, that this Legislative Assembly provide for the issuing of bonds to the amount of two hundred thousand dollars, one hundred and twenty-five thousand of which shall be expended in the erection of one wing of a Capitol Building, the remainder to be placed in the Territorial Treasury, so that the Treasurer can meet the Auditor's warrants provided to be issued by the Appropria-

tion Bill and not to have to wait the returns on taxes for six months or more before such warrants can be cashed, and thus save to the Territory several thousand dollars annually which for many years past has been paid in discounts or interest, or both, on said warrants issued for the maintenance of Territorial institutions. The advantage to the Territory being in the difference in the rates of interest as between money obtained on bonds at the rate of five per cent per annum and that paid to banks which has not been less than ten, and more frequently twelve per cent per annum.

Chairman.

REPORTS OF STANDING COMMITTEES.

MINORITY REPORT OF COMMITTEE ON MANUFACTURES AND COMMERCE.

Mr. Speaker:

As a minority of your Committee on Manufactures and Commerce, we beg to dissent from the views of the majority on H. B. No. 90, Substitute for H. B. No. 47.

The people, and especially those engaged in beet raising, have not asked for this measure and are not asking for it. On the contrary these very people most nearly interested in this matter are here, irrespective of party politics, in large numbers, by petition, protesting against such legislation. It is class legislation in its worst form and can have but one effect, that of creating an inclination on the part of the people to depend upon the Government for support. This is reversing the order of things. The people are expected to support the Government and not the Government the people. If it be claimed that it is a public benefit to vote this bounty then, in the interest of all the people, amend this bill and vote a bounty to the raising of carrots, potatoes, barley, hops, wheat, oats, corn and the other agricultural products, for certainly the man who produces any one of these can not be said to be less

deserving than his neighbor who produces the beet. It is a fact that will not be denied that a majority of the land heretofore planted in beets in this Territory gives a larger yield in value per acre than that which produces wheat, and yet the wheat-raisers are left to struggle in the raging and hotly contested warfare of life unaided and unprotected by any means except the exercise of his own good judgment and the brawn of his own mighty right arm.

This bill is, beyond question, a partisan measure. It is "protection run mad." It actually collects and extorts money as taxes from every other farmer in the Territory in order that it may be turned over into the pockets of that favored class of farmers knowns as beet-raisers.

This kind of legislation is not only wrong in principle but is contrary to Constitutional forms, and the United States Supreme Court has passed upon the bounty question in the following words:

"To lay with one hand the power of the Government on the property of the citizen, and with the other to bestow it upon favored individuals, to aid private enterprises and build up private fortunes, is none less than robbery because it is done under the forms of law and is called taxation." This is not legislation. It is a decree under legislative form. Nor is it taxation. "A tax," says Webster's Dictionary, "is a rate or sum of money assessed on the person or property of a citizen by the Government for the use of a Nation or State. Taxes are burdens or charges imposed by the Legislature upon persons or property to raise money for public purposes. We have established, we think, beyond cavil, that there can be no lawful tax which is not laid for a public purpose. If it be said that a benefit results to the local public of a town by establishing manufactures, the same may be said of any other business or pursuit which employs capital or labor. The merchant, the mechanic, the inkeeper the banker, the builder, the steamboat owner, are equally promoters of the public good, and equally deserving the aid of the citizens by forced contributions. No line can be drawn in favor of the manufacturer which would not open the coffers of the public treasury to the importunities of two-thirds of the business men of the city or town."

Thus the highest tribunal of our country has declared upon this question of bounties.

In the language of that august court, if it be said that

a benefit results to the local public of any vicinity by fostering the raising of beets, the same may be said of any other kind of farming, and the potato-raiser is entitled to and should demand a bounty upon the products of his labor, for he is equally a promoter of the public good with his neighbor who produces beets. Indeed, it is said, and with all the force of incontrovertible truth, that no line can be drawn in favor of beet raising, which would not open the treasury vaults of our Territory to the demands of every farmer within its broad limits.

Respectfully submitted,

AQUILA NEBEKER,
STOKER.

H. J. R. No. 8, by Mr. Hatch—A Resolution Abandoning the Capitol Grounds in Salt Lake City:

Whereas, The Territory of Utah is not the owner of the grounds on "Arsenal Hill," but the title is so conditioned that in case of any future removal of the seat of government, the grounds, with all buildings erected thereon, will revert to Salt Lake City, and any and all moneys expended in improvements will be a total loss to the people of the Territory; and

Whereas, Said grounds are located three-quarters of a mile up an alley, over and beyond a hill, and on the side of a mountain that slopes in such a direction and at such an angle that said grounds are not visible to any inhabitant of the Territory, unless, perhaps, to a chance hunter shooting ducks on Warm Springs Lake; and

Whereas, Said grounds are practically inaccessible, owing to the extreme elevation of the same above Salt Lake City and the surrounding valley; and

Whereas, On account of the excessive altitude, and the irregular conformation and perpendicularity of the said grounds, the cost of construction of any buildings will be from twenty-five to fifty per cent. greater than on any suitable site; and

Whereas, Owing to the natural obstacles of the location the Board of Commissioners on Capitol Grounds, using the

utmost wisdom and economy, have been unable to make any improvements commensurate with the money appropriated and expended for such purpose; and

Whereas, The topography of the immediate vicinity, and the scarcity of water, will prevent the settlement and improvement of the adjoining mountains, thereby leaving the Capitol Building of the Territory remote and isolated from the Territory itself.

Resolved, By the Governor and Legislative Assembly of the Territory of Utah:

That the present site for the Capitol Grounds is unsuitable, inadequate and unworthy;

That the further improvement of said grounds will be an extravagant, reckless and dangerous use of public money; and

That said grounds should be, and are hereby abandoned.

REPORTS OF STANDING COMMITTEES.

WAYS AND MEANS.

House of Representatives,
February 18, 1894.

Mr. Speaker:

Your Committee on Ways and Means beg leave to report as follows: Twenty-two counties have reported on school lands, in response to House Resolution No. 15. Box Elder, Utah and Sanpete Counties, only, received moneys from leasing these lands in the year 1892. Ten counties have given the subject more or less attention during the year 1893. Cache, Kane, San Juan and Summit Counties have not yet reported. The returns received are very imperfect as to acreage, class and quality of lands, etc. The following counties have taken no action towards leasing the school lands within their boundaries: Millard, Uintah, Beaver, Morgan, Iron, Garfield and Wasatch. Some of the county courts of these counties have been controlled by the advice of their county attorneys, who have represented that the Territorial Act passed in 1892 was unconstitutional. Your Committee therefore ask that such communications be referred to the Committee on Judiciary, with the request that said committee report, at its earliest convenience, the facts regarding the right of the Territory to lease said school lands. If the Territory has not the right, then the law of 1892 relating to the leasing of school lands should be repealed, and in the opinion of your Committee, the money received from the leasing of said lands the past two years, and which has been paid into the Territorial treasury, should be paid back to the persons from whom it has been collected; but if the law is pronounced to be constitutional, the Legislature should have the law of 1892 so amended as

to make it a misdemeanor for the members of any county court to neglect to enforce its provisions.

STANFORD,
Chairman of Committee.

Names of Counties and amounts received from leasing school lands:

Mr. Speaker:

A majority of Your Committee on Ways and Means, having duly considered House Bill No. 130, entitled An Act to Provide for the Payment of Jurors and Witnesses and making Appropriations Therefor, respectfully report the same favorably, and recommend that it be placed upon its passage.

MCBRIDE,

MINORITY REPORT.

Committee Room,
February 24, 1894.

Mr. Speaker:

Your Committee on Ways and Means, having had under consideration, H. B. No. 130, we, the undersigned, beg leave to submit the following report:

That to provide for the payment of these old outstanding certificates of Jurors and Witnesses' Fees, many of which date back as far as the year 1870, and all of them between that date and 1888, and which have been passed upon, and in one instance, at least, repudiated by adverse Territorial Legislation; and, further, to our knowledge and belief, a great portion of these certificates are held by brokers, who have bought them for a mere nominal

amount, we believe it would be unjust to the taxpayers of the Territory to pay the same at the present time, considering the depleted condition of its finances, and the large expenditure of money necessary to be expended for the maintenance of our public institutions, being in excess of our revenues, so that it is probable that taxation will have to be increased.

While we recognize the fact that all just debts should be paid, we are opposed to this appropriation of thirty thousand dollars for the redemption of such certificates at the present time, and under these conditions report adversely to the passage of this bill.

J. STANFORD,
H. W. DOUGALL.

REPORTS OF STANDING COMMITTEES.

AGRICULTURE AND IRRIGATION.

MAJORITY REPORT.

Committee Room,
February 21, 1894.

Mr. Speaker:

Your Committee on Agriculture and Irrigation, having duly considered H. B. No. 27, beg leave to report as follows: That we recommend that H. B. No. 27, as amended, do pass.

CLARK,
Chairman of Committee.

Received.

MINORITY REPORT.

House of Representatives,
February 13, 1894.

Mr. Speaker:

The undersigned, a member of your Committee on Agriculture and Irrigation, begs leave to present this minority report in the matter of H. B. No. 27, entitled A Bill for An Act to Encourage the Production of Canaigre and the Manufacture of Leather in the Territory of Utah.

The majority of said Committee on Agriculture and Irrigation, having presented a report recommending the passage of said H. B. No. 27, I respectfully present the following reasons why I dissent from their views:

First—According to statements made before your Committee by the author (as I understand) of the bill, the Ca-

naigre plant grows wild and in such profusion in the localities where it is possible for it to grow, that it has become a nuisance to the farmer, gardener and horticulturist; that markets are already established where the root can be sold; that enterprising men in Europe have come to New Mexico, and have purchased 2,000 acres in the Pecos Valley and have planted the same with the Canaigre root; that it is said to be a profitable investment. That 6,000 acres of land are to be planted with Canaigre in the State of Texas; that the demand for the Canaigre root, on account of its wonderful tannic acid properties, is steadily increasing and that demand cannot be supplied; that reliable authority shows that the acids contained in the root could be placed in Salt Lake City for about fifty per cent. less than the imported article; that the root commands a price of \$40 per ton in Vienna, delivered there by water transportation.

Second—That in view of the present and prospective depleted condition of the Territorial treasury, as shown by the Territorial Auditor's report, which is before us, regardless of the question of the lawfulness and justness of diverting the public revenues from their proper channels, I submit, Mr. Speaker, that it is, at least, unwise to so appropriate the monies of the Territory thereby enlarging the deficits and placing the Territory on the verge of bankruptcy.

Third—The Auditor's report, dated December 31, 1893, shows the following alarming deficit at and on March 15, 1890, and their increase since that date:

March 15, 1890, excess of Territorial liabilities over and above all its available resources	\$177,795 61
December 31, 1891, increase of deficit during the biennial term ending this date.....	303,760 34
December 31, 1893, increase of deficit during the biennial term ending this date.....	258,543 69
December 31, 1893, total deficit.....	<u>\$740,099 04</u>

In conclusion, let me say, with all due respect to the majority of your committee, that with the foregoing facts laid before us, when foreigners living at a distance of from 6,000 to 7,000 miles from us, can come here, purchase our land, and grow rich upon that which is a nuisance to our

own people, without governmental aid, it seems to be a very unwise course for us to adopt; that is, to appropriate from the Territorial funds the amount asked for in H. B. No. 27, namely, \$19,000, and I earnestly ask that the majority report of your committee may not be adopted, but that this minority report may be adopted, and that said H. B. No. 27, do not pass.

Respectfully submitted,

JOHN MOORE,

A Member of the Committee
on Agriculture and Irrigation.

Mr. Speaker:

Your Committee on Ways and Means, having duly considered H. P. No. 68, presented by the officers and members of the "Executive Committee of the Rescue Home for Women," supported by the signatures of a large number of prominent persons resident in Salt Lake City, asking for an annual appropriation of two thousand dollars for further extending the benefits of this home, and to aid in reclaiming an unfortunate class of women, respectfully report that while their private sentiments and sympathies are with the promoters of this kind and benevolent Home, "established by Christian women," your committee do not feel justified in recommending that the prayer of the petitioners be granted, for the reason that the Territory has already under-

taken to support and maintain public institutions, charitable, educational, etc., etc., at a cost largely in excess of the revenue derived from taxes, and in the opinion of your Committee, City Councils and County Courts are the more proper public bodies to extend support to this class of benevolent societies. We therefore recommend that said petition be laid upon the table.

JUDICIARY.

Committee Room,
February 26, 1894.

Mr. Speaker:

Your Committee on Judiciary, to which was referred the report of the Committee on Ways and Means of Feb-

ruary 18, with accompanying communications relative to the right of the Territory to lease school sections, so called, beg leave to report as follows:

Section 15 of the Organic Act provides that sections numbered sixteen and thirty-six in each township, when the same shall be surveyed preparatory to bringing the same into market "shall be, and the same are hereby reserved for the purpose of being applied to schools in said Territory, and in the States and Territories hereafter to be erected out of the same."

Section 1946, Revised Statutes of the United States, is to the same effect, being a statement of the provisions of the Organic Acts of Several Territories carried into the Revised Statutes.

There are no words of grant in these acts of Congress. Unless the title to the school sections has vested in the Territory, it would seem clear that the Territory has no right to lease or otherwise control them. The purpose of Congress is manifest and in accord with the rule which it has uniformly maintained relative to school sections in all Territories.

When surveyed, these lands are reserved from sale or other disposition for the purpose of being afterwards granted to the State or Territory. All the enabling acts for Territories have contained specific grants of these lands, expressed by apt words of conveyance, and the act now pending for the admission of Utah is no exception.

We think that the title to these lands is in the United States, and that the Territory has nothing to do with them. In *Ferry vs. Street*, 4 Utah 531, The Supreme Court of the Territory uses language indicating its opinion that the title to these lands when surveyed vests in the Territory. The question was not involved nor necessary to the decision and we do not feel bound by it.

The condition of these lands is, it seems well stated by the Supreme Court of Montana.

"While sections 16 and 36 were reserved for the purpose of aiding the development of the Public School system in the coming State of Montana, and so far as their sale for the purposes of settlement is concerned, were segregated from the public domain, still the title to them and the dominion and control over them, remain in the Government

of the United States; the agents of the public school system have no control over them.”—U. S. vs. Bisel, 19 Pac. Rep. 254.

We think, however, that it is very necessary for the Territory to have control of these lands, and recommend that proper application be made to Congress. In 1888, under precisely similar circumstances, Congress passed an act validating a law—and leases thereunder—of the then Territory of Washington—Statutes at Large, Vol. 25, 358.

Therefore, we report herewith, a Joint Memorial, with the recommendation that it do pass.

H. B. No. 131—Entitled “An Act Amending Section 376, p. 224, Vol. 1, of the Compiled Laws of Utah,” being a bill to amend an act of Congress, is herewith reported, with the recommendation that it be indefinitely postponed.

In the opinion of the Committee, the provisions of this bill should be incorporated by way of amendment to H. B. No. 44, which has passed the House. It would seem advisable for the present Legislature to enact such a law relative to the leasing of school sections as may be just, in anticipation of the Congress hereafter granting the authority.

COMMUNICATION FROM THE AUDITOR.

TERRITORY OF UTAH,
Auditor's Office,
Salt Lake City,
February 27, 1894.

Hon. Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Dear Sir—Agreeable to request contained in H. R. No. 22, I have the honor to transmit herewith an itemized statement of the disposition made of the appropriation for incidental expenses of the offices of the Auditor of Public Accounts and Recorder of Marks and Brands for the years 1892 and 1893. Also the amount paid for rent of offices of Auditor of Public Accounts and the Recorder of Marks and Brands, for said years.

It will be seen that the amount expended for inciden-

tals in the offices of the Auditor of Public Accounts and Recorder of Marks and Brands exceeds the appropriation—\$169.88. My predecessor claims that this indebtedness was incurred in good faith, and that the expenditures were necessary for the proper transaction of the public business intrusted to his care, and he respectfully requests the Legislative Assembly to make an appropriation covering said deficiency.

The vouchers for these expenditures are on file in my office. They have been compared with the statement by Arthur Stayner, Esq., the gentleman appointed by the Assembly to audit the books of the Auditor of Public Accounts and the Recorder of Marks and Brands, as appears by his certificate attached. Should the Assembly, or any of its Committees, desire to inspect these or any other vouchers on file in this office, the Auditor will take pleasure in waiting upon them with such vouchers as they may desire.

Very respectfully,

JOHN T. CAINE,

Auditor of Public Accounts.

Read at length and referred to the Committee on Claims, with accompanying vouchers.

H. P. No. 83, by Mr. Johnson—From residents of Sanpete County, asking the repeal of all Medical Laws.

Referred to the Committee on Public Health.

JUDICIARY.

Committee Room,
March 1, 1894.

Mr Speaker:

Your Committee on Judiciary, having duly considered H. B. No. 145, entitled A Bill for An Act to Cure, Validate and Confirm Certain Acts of the Ogden City Council, Concerning the Paving of Twenty-Fifth Street, in said City, having duly considered the same, beg leave to report as follows: The object of the bill is to cure, legalize and confirm "all and every act, or acts, done by the Common Council of Ogden City, in and about the passing of an ordinance, giving notice of intention, levying assessments, making contracts to pave District No. 2," and the evidence and statements made before the Committee tend to show that there is at least a serious question whether the City Council acquired jurisdiction under the City Charter to do the work. About seventy tax-payers (said to be more than one-half of the abutting owners) promptly protested, and an action is pending in the District Court to determine the legality of the Acts of the City Council. In this action at least three jurisdictional questions are presented for the decision of the Court. The protestants claim in this action that no valid resolution or ordinance creating the paving district was passed, and that in any event, more than one half of the abutting owners protested, etc., and that the notice required by statute was not given.

We do not think it necessary for the Committee to hear and determine these questions. They are judicial in their nature, and the Court is the proper forum for their decision. The Legislature would not have the power in advance to authorize such proceedings by a City Council without ordinance or an equivalent resolution, nor could it empower the Council to bind the property of the citizens without notice.

It follows that it has not power to ratify acts which it could not authorize in advance.

These questions are now before the courts for determination. If decided against the city, we apprehend that the proposed bill, if enacted, would be of no effect.

If the case presented mere errors or irregularities committed by the City Council after it had acquired jurisdiction, it might (depending on circumstances) be proper for the Legislature to interfere. In such case however, the method by special act of giving relief involves a doubtful question of power under the restrictive Act of Congress.

In conclusion, we do not wish to be understood as claiming that the allegations of the protesting taxpayers in their suit against the city are true or untrue. We simply say that the questions they present are jurisdictional and essentially judicial in their natures and that the Legislature cannot properly interfere. We recommend, therefore, that the bill do not pass.

VARIAN,
Chairman of Committee.

No. 71 of Smythe, Britton & Poore Co. for \$148.00, having had the same under consideration, find that there are only 391 pages in the index specified, instead of 400 hundred pages, and we therefor recommend that the sum of \$126.67 be appropriated in full for said claim.

Dinwoody, for \$1463.73 for book cases, rugs, etc., furnished the Territorial Library, beg leave to report that we have had the same under consideration, and recommend that said claim be referred to the Appropriation Committee, and that the Board of Control of said Library pay this claim out of the amount that may be appropriated by said Appropriation Committee to the Territorial Library for 1894 and 1895.

CAPITOL GROUNDS.

MAJORITY REPORT.

Committee Room,
March 5, 1894.

Mr. Speaker:

Your Committee, to whom was referred the report of the Commissioners on Capitol Grounds, respectfully represent that they have examined and approved said report, and recommend that the amount required for the completion of the improvements, as originally surveyed and platted, relating to said grounds, be appropriated. Also the amount of five thousand dollars for the caring for and keeping of said grounds in proper condition the ensuing two years, and that said Commissioners' report be filed in the office of the Territorial Auditor.

Your Committee have also taken under advisement the recommendation of said Commissioners, in connection with that part of the Governor's Message dated January 8, 1894, likewise the special message of Governor West dated March 1, 1894, relating to the erection of one wing of a Capitol building, and respectfully report that the reasons assigned for the erection of such portion of a Capitol building, which will afford ample provision for all legislative, judicial and general business purposes, meets with our approval, as in the erection of such a building the needs of the Territory or State will be provided for, in this direction, for many years to come

By the erection of this building, at an estimated cost of one hundred and twenty-five thousand dollars, which amount can be obtained by issuing bonds at five per cent. interest, it is evident by representations in figures made to your Committee by the Secretary and Governor, on cost of rent for halls, office rooms, etc., that the advantages in building over that of renting, would not only pay the interest on the bonds, but be a net saving to the Territory annually of from three to four thousand dollars. And, as suggested in the Message of Governor West, the erection of this building at the present time, would give work to a large number of the unemployed working class, a subject worthy of the most earnest consideration of this Legisla-

tive Assembly, under existing distress and want, among so large a number of this class of citizens. Your Committee are also of the opinion that all kinds of material and labor can be obtained at greatly reduced prices at the present time, so that a saving of at least twenty per cent. in the cost of such a building can be saved to the Territory. We therefore recommend the issuing of bonds and the erection of one wing of a Capitol building.

STANFORD,
STOKER,
MASON,
POWERS.

McBride, dissenting.

COMMUNICATION FROM THE GOVERNOR.

TERRITORY OF UTAH,
Executive Office,
Salt Lake City,
March 8, 1894.

Hon. Albion B. Emery, Speaker of the House of Representatives:

Sir—I herewith return and respectively recommend the amendment of An Act to Appoint a Board of Police and Fire Commissioners in Certain Cities, and to place the Police and Fire Departments of said Cities upon a Non-Partisan Basis. The intention and purpose of the measure, viz: To take the Police and Fire Departments outside of partisan politics in Cities of more than 12,000 population is commendable and praiseworthy, and meets with my hearty approval.

It is also right and just to protect in their terms of office as the bill does, those who have been selected and are now holding positions. One of its provisions, however, seems to me obviously unjust and might possibly defeat, in some measure, the purposes of the law. The present incumbents are favored and put upon a better footing than other citizens. Section 7 requires that the present Chiefs of Police and Engineers of the Fire Departments shall retain the positions they now hold after the expirations of their present terms unless removed by a vote of three members of the Board, thus they can be retained in their positions at the will of but two members, while all other applicants must have the concurrence of three of the Board be-

fore they can obtain appointment. I suggest an amendment to cure this inequality.

I am, sir, very respectfully,

CALEB W. WEST,
Governor.

Received, and on motion, the Chair appointed a Committee in relation to H. B. No. 101, consisting of Messrs. Powers and Mason.

Speaker Emery, at this time, presented to each of the members and officers of the House a handsome boutonniere.

On motion of Mr. Sears, put by Mr. Allen, the House accepted the gift with thanks.

The House proceeded with the consideration of H. B. No. 167, by the Committee on Appropriations—Making Appropriations for General Purposes.

The House consenting, Mr. Johnson offered the following:

HOUSE RESOLUTION NO. 25.

Whereas, Donn J. Shields, the page of this House, has faithfully performed his duty, therefore, be it

Resolved, That the compensation of said Donn J. Shields be fixed at the sum of two dollars per day, and the Sergeant-at-Arms is hereby authorized and directed to pay the same from the contingent fund of the House.

Read at length and laid on the table.

The House consenting, Mr. Nebeker offered the following:

Whereas, It has come to the knowledge of the members of the left side of this House that there is a matter concerning the Speaker, which demands immediate attention; therefore, be it

Resolved, That the Chair be yielded to the Chief Clerk, until a matter, which directly affects the Speaker of this House, may be determined.

Resolution adopted unanimously.

Chief Clerk Stanton assumed the Chair and recognized Mr. Ivins, who, in a few well chosen words, presented, from the members of the House, a gavel, appropriately inscribed with their compliments.

Speaker Emery, in accepting the gift, responded with feeling, after which he resumed the Chair, and the House proceeded with the consideration of the Appropriation Bill.

During the discussion, Mr. Tolton assumed the Chair, on the invitation of the Speaker, who was temporarily excused.

Speaker Emery resumed the Chair.

COMMITTEE ON ENROLLMENT.

Committee Room,
March 7, 1894.

Mr. Speaker:

Your Committee on Enrollment, to whom was referred H. B. No. 150—An Act Relating to Practice of Medicine; also, H. J. M. No. 16—Relating to School Lands, beg leave to report that the same have been correctly enrolled, signed by the Speaker of the House and President of the Council and were this day sent to the Governor, for his official action thereon.

WARNER,
Chairman of Committee.

Received.

Mr Stanford offered the following report from the Committee on University Lands.

MAJORITY REPORT OF COMMITTEE ON UNIVERSITY LANDS.

Committee Room,
March 8, 1894.

Mr. Speaker:

Your Committee, appointed to confer with the Com-

missioners on University Lands in relation to reports, etc., respectfully represent that said Commissioners report that there has been 24,631.51 acres of land surveyed and sold at rates varying from \$3 87 to \$4 30 per acre. The total value of sales amounts to \$103,045.10. The unsold lands amounting to 4772.71 acres appraised at \$19,603.10. The unsurveyed lands 16,436.31 acres. Cash realized on sales, with interest paid in advance \$20,078.95. As the purchasers of University lands have nine years in which to pay the purchase price and annual payments, together with interest paid being deposited to increase the capital until the nine years expire, the interest upon principal and interest is the only money available pending the final purchase money being paid up, hence for a few years to come the revenue to be derived from these lands will materially benefit the University in the shape of revenue. The amount thus available for the present year being about one thousand dollars.

Mr. Dixon appeared before the Commissioners and your Committee, in behalf of himself and three other persons, who were represented by petition or written complaint, charging the Commissioners with having deprived them of their rights to certain University lands, located near Provo City, in Utah County. Your Committee, for the want of time and means to communicate with all the aggrieved persons, with a view to bringing them together to adjust their differences, and being also of the opinion that if there were legal grounds for complaints and legal action, it would be a matter beyond their jurisdiction to assume to adjust. We would, therefore, simply state as the result of our inquiry, your Committee believe the Commissioners have acted in good faith in the sales and disposition of all lands placed under their control, but through some persons interpreting the law as they understood it which led to a delay in their making known their wishes, which delay the Commissioners regarded as an abandonment of what slight improvements had been made on the lands they sold to other parties, hence disputations arose and charges of unfair dealing followed as the result of being too slow on one side and a little too hasty or premature in action on the other, and as the law is a little open or indefinite under which the difficulty arose, one of your Committee

has presented a bill for An Act to amend the law so that any trouble in this direction in the future, if passed, may be avoided. Your Committee are unitedly of the opinion that the Commission have aimed, in the disposition of the University lands, to deal honorably and justly by all, but when contests arise as to who are entitled to preferences, under complicated conditions, it becomes impossible to give satisfaction to all parties.

JOS. STANFORD,
JOS. MONSON.
Committee.

MINORITY REPORT.

Committee Room,
March 8, 1894.

Mr. Speaker:

A minority of your Special Committee on University Lands, to whom was referred the matter of certain charges preferred by citizens residing on Provo Bench against the Commissioners to locate University Lands, having had the same under consideration and investigation, report as follows:

That said Commissioners, acting in an arbitrary manner, have done a great injustice to the settlers on University lands on Provo Bench. That said settlers have been deprived of their improvements on said lands by the action of said Commissioners as aforesaid.

That said Commissioners, having no rules laid down by which contests to said lands could or should have been determined, and acting, though arbitrarily, as we think, and without due regard of the rights of others, proceeded to sell said lands to the highest bidder, comprising some 800.23 acres to a certain syndicate, at an average price of \$3 50 per acre.

Your Committee, therefore, without fully going into detail and to avoid future actions of this nature on the part of said Commissioners, and that all contests to University lands shall be decided by a court of competent jurisdiction prior to the day set for the sale of said lands, and that no lands or land shall be awarded to either party until the matter as to which said parties have settled upon, cultiva-

ted or improved any of said lands shall have been fully determined, respectfully recommend that House Bill No. 168 be passed.

TERRITORY OF UTAH,

Salt Lake City,
March 8th, 1894.

Hon. Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I have returned herewith An Act to Establish Free Public Employment Offices. The Act is a good one, and, if efficiently administered, should it become a law would be of great benefit to our people. It imposes upon the Secretary of the Territory important duties, requiring the exercise of intelligent and careful consideration and action. The gratuitous duties proposed to be imposed by the bill are sufficiently onerous without expecting of him to supply the necessary stationery, records, postage and to personally carry on the voluminous correspondence absolutely necessary to a complete and satisfactory execution of the law. The amount appropriated by the bill is limited to

printing and is barely, if indeed, sufficient for that purpose. To give such effect to the measure as the Assembly contemplates would necessitate the purchase of stationery, blanks, books, postage, etc., as well as the employment by the Secretary of such assistant or clerk as would not only be able, under his supervision and direction, to do the clerical work, but of sufficient capacity to appreciate the important character of his duties and in aid of making the law effective.

To cover this expense, which would be necessary and continuing, no appropriation is provided. It is reasonably estimated that the clerical work would cost one hundred dollars per month, or \$2,400 for two years, and that the stationery, records and postage for the same period would cost \$500 in addition to the amount for printing provided for in this bill.

If the act is so amended, I will be pleased to approve the measure.

I am, sir, very respectfully,
CALEB W. WEST,
Governor.

Before final disposition, the following communication from the Governor, in relation to H. B. No. 117, was here read:

COMMUNICATION FROM THE GOVERNOR.

Territory of Utah,
Executive Office,
Salt Lake City,
March 8, 1894.

Hon. Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—H. B. No. 117—An Act for the Payment of Jurors, Witnesses and Phonographic Reporters, and Creating and Defining the Duties of Court Commissioners, is herewith returned without approval. To the bill, in its present form, there is an insuperable objection. The Organic Act of this Territory is our fundamental law. Among other things, it defines the duties and limits the powers of the different departments of the Legislative Assembly. By the provisions of Sec. 7 of the Organic Act, "All township, district and county officers, not herein otherwise provided for, shall be appointed or elected, as the case may be, in such manner as shall be provided by the Governor and Legislative Assembly of the Territory of Utah. The Governor shall nominate, and by and with the advice and consent of the Legislative Council, appoint all officers not herein provided for."

This bill seeks to create the offices of Court Commissioners in and for the Territory, and these offices, as defined in the bill, are Territorial in their character.

Under the decision of *McCornick vs. Thatcher*, 8 Utah Reports, 301, there can be no question but what the creation of an "office" is contemplated. For the disbursement of a portion of the public funds, gathered by the general Territorial tax, this measure creates the offices of "Court Commissioners." The duties of the persons filling such offices are to disburse Territorial moneys for Territorial purposes, and to the Territory are they responsible for per-

formance of the duties defined in the bill. The case above cited, as well as that of the Territory vs. Clayton, 132 U. S., invincibly establishes the proposition that a "Court Commissioner" is a Territorial officer.

The serious objection to this bill is found in the fact that it contravenes the provisions of Section 7, above mentioned. "In Clayton vs. Utah Territory, supra, it was held by * * the Supreme Court of this Territory, and afterwards affirmed by the Supreme Court of the United States * * that the Legislature of the Territory had the power to create the offices of the Auditor of Public Accounts and Treasurer of the Territory, but could not provide the mode of their appointment." Unquestionably the Legislature has the power to create the offices provided in H. B. No. 117, but the highest tribunal of our country has decided that the prerogatives of the Governor are invaded when the Legislature attempts to "provide the mode" of filling them.

This bill attempts to deprive the Executive of the Territory of the power to nominate officers clearly Territorial in their callings, and is contravention of the provisions of the section of our Organic Act above referred to.

It can be no answer to this that the offices of Court Commissioners are now in existence under previous enactment. This bill treats the present law as having expired by limitation and seeks to re-enact most of its provisions. Nor is it an answer to the position taken to say that the Executive in the past surrendered his right and allowed a similar measure to become law. Long years of acquiescence in a wrong ought not to be pleaded as an estoppel when the right is demanded.

It is a matter of sincere regret that a question which for many years provoked bitter discussion should now arise to revive issues which have been settled and passed to the region of finality. It is no captious spirit which leads me to thus call your attention to the rights of the Executive, for the Governor of the Territory is the servant of the people. But as a co-ordinate branch of the Legislature he has prerogatives which no loyal citizen ought to demand him to relinquish, and which, with a proper sense of self respect, he could not surrender. Most of the provisions of this bill meet my hearty approval and, if Section 11 is so amended

as to remove the objections above indicated, it will give me much pleasure to approve the bill.

I am, sir, very respectfully,
CALEB W. WEST,
Governor.

I am directed to inform your Honorable Body that the Council has this day amended and passed, according to the recommendation of the Governor, C. B. No. 109, An Act providing for a lessor's lien, and the same is herewith enclosed for your action. The Governor assigns the following reasons:

"This is new legislation in our Territory, and the bill purposes not only a civil remedy for lessors, but seeks to make crimes out of what might be innocent acts. The bill, in my judgment, affords ample protection to lessors without the penal provisions of Section 3. If this section is eliminated from the bill, I shall be pleased to approve the bill. Hon. Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I have this day approved and filed in the office of

TERRITORY OF UTAH,

Salt Lake City,
March 8, 1894.

Hon. Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I herewith return, without approval—An Act entitled “An Act to Restore the Control of Elections to the respective County Courts of Utah,” deeming it an ill-advised attempt to revise and alter Congressional legislation. By the Edmunds Act, Congress disqualified a certain class of persons from voting. These disqualifications can only be removed by Congress, and this Act cannot take effect unless approved by Congress. In the enabling act for the admission of Utah, which has already passed the House of Representatives and is now pending in the Senate, with promise of early consideration, Congress recognizes the changed conditions existing in the Territory and, in effect, removes the disqualifications imposed by the Edmunds Act. I do not think it wise, after favorable actions by one branch of Congress upon this important subject, to submit the present bill and thus afford an opportunity, if not an invitation for the reconsideration of what has already been done towards restoring the franchise to persons now disqualified, besides causing delay and perhaps imperil the enabling act. It could not hasten the desired consummation, and might retard Statehood. While it is desirable to place the control of elections in the hands of the people, it is certainly more desirable to remove from a large class of our citizens the disqualifications that are now not only unnecessary but unjust, and we cannot afford to jeopardize our chances of getting the greater boon in the hope of obtaining the lesser, which will swiftly follow the enabling act. Besides, we are assured that the present system will be administered

during its future brief existence by bona fide citizens of our Territory.

I am, sir, very respectfully,
CALEB W. WEST,
Governor.

TERRITORY of UTAH,
Executive Office,
Salt Lake City,

Honorable Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I herewith return H. B. No. 114, being “An Act to Amend Part 1, Chapter V, Section 44, of the Code of Civil Procedure, Relating to Courts,” without my approval, for the following reasons:

Under the law, as it now exists, the Justices of the Peace are elected by the various precincts of the cities respectively and in my judgment it is unwise and contrary to public policy to permit or authorize these officers to hold court or exercise their official functions outside of the districts in which they are elected. The policy of the law which divides counties and cities into prescribed districts or precincts in which Justices of the Peace shall be elected presupposes that they will exercise their judicial functions ordinarily only within these districts or precincts, and that one precinct shall not elect Justices for another precinct.

I am, sir, very respectfully,
CALEB W. WEST,
Governor.

COMMUNICATION FROM THE GOVERNOR.

Territory of Utah,

Executive Office,

Salt Lake City,

March 8, 1894.

Hon. Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I return herewith, without my approval, An Act for the Establishment, Maintenance and Enlargement of Free Public Libraries. The act authorizes and directs the Boards of Education to make an estimate of an amount necessary to support and maintain free public libraries in their respective cities, and requires the Assessor and Collector of the county in which said city is situated, to assess and collect such amount, provided it does not exceed, in any one year, one-fifth of one mill on the dollar upon all taxable property of said city.

This in my opinion, is not wise, as said Board would undoubtedly find it necessary, in order to maintain a library in a city the size of Salt Lake, to tax the full limit provided in the act, and at the present time the amount that would be thus collected and expended in the purchase of books and necessary expenses of keeping a library open could be expended to a much greater benefit in furnishing employment to its citizens, who are now more in need of bread than books.

I am, sir, very respectfully,

CALEB W. WEST,

Governor.

COMMUNICATION FROM THE GOVERNOR.

TERRITORY OF UTAH,
Executive Office,
Salt Lake City, Utah,
March 8, 1894.

Hon. Albion B. Emery. Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I herewith return Council File No. 64, Relating to the Practice of Attorneys before the Courts of this Territory, and the Qualifications of the Judges, Justices and Commissioners of said Courts, without my approval, for the following reasons:

I am of the opinion that such a law would be unwise and inexpedient, and in some cases would be extremely unjust, and entail hardships upon persons pursuing honorable callings amounting almost to an absolute confiscation of property.

I can conceive of cases in which suitable and available men for judicial positions—men whom the appointive or elective power perhaps would delight to honor—would feel compelled to decline for the reason that to accept the office would have the effect of driving a father, brother or son from his home and the neighborhood or district where, after years of honorable conduct, he had succeeded in establishing a name and reputation and a prosperous, honorable business. This, in my judgment, would be, to say the least, unfair and unjust.

I do not think such a law is essential to the due and proper administration of justice.

Judges are ordinarily, conscientious, able, learned and sensitive. It is not likely they will undertake to decide cases in which a father, brother or son appears as attorney for either of the parties, especially without the express consent of the parties. Should, however, any judge assume to act in such a case, it is absolutely inconceivable to suppose he will persist in such action against the express objection of the parties, or either of them.

In my judgment litigants have a remedy complete in

their own hands, and legislation, therefore is wholly unnecessary. The laws of the Territory already prohibit partners of judges from practicing before them, hence there seems to be no necessity for legislation upon the subject matter of the bill.

I am sir, very respectfully,

CALEB W. WEST,
Governor.

COMMUNICATIONS FROM THE GOVERNOR.

TERRITORY OF UTAH,
Executive Office,
Salt Lake City,
March 8, 1894.

Hon. M. A. Breeden, President of the Council, Salt Lake City, Utah:

Sir—I herewith return, unapproved, C. B. No. 92—An Act in Relation to Revenue, and Repealing Certain Laws. The high educational standard of our Territory is the subject of mutual congratulation, and is attributable to the generous spirit of the people and the wise school laws enacted by their representatives. The splendid achievements in our educational field are only the beginning of that higher education which must come to this Territory, if the public school system receives that fostering care in the future which has been bestowed in the past. This bill strikes at the school system. It robs the School Fund, by taking a half a mill from the amount now provided for school purposes. It takes \$60,000.00 from the Territorial School Fund and places the same amount in the General Fund, presumably to meet the payment of *bounties*. In addition to this, there can be no question but what valuations upon Territorial property, for taxing purposes, will be much less during the present year than during the past year. This fact alone will greatly reduce the funds for school purposes, and even if the taxes were not reduced, would greatly cripple the schools. Why is this considered wise or proper legislation? I confess that, to me, this measure is unwise and fraught with danger and will to the educational interests in this fair commonwealth; besides, it is an effort to concentrate the taxes in the wealthy part of the Territory, and to withdraw from the rural districts much of the strength essential to their growth and advantageous to the general welfare. I feel that a grievous mistake would be made if this bill were to become a law. This bill is sectional, and would, in addition to the distress caused, provoke bitterness between the counties and the cities of wealth and population.

I insist that you do justice to our schools, and the young men and women growing to vigorous manhood and

womanhood. It may be said that this is economy, and becomes necessary because of the financial condition of the Territory. Perhaps this claim of economy is considered justifiable because of the passage of measures by the House and Council paying bounties, which, if enacted into laws would take from the pockets of the people during the ensuing two years over \$60,000, which ought to be legitimately disbursed for public purposes. Strange it is to hear the cry of economy in view of bounty bills and illegal measures, which aim to further private purposes at the cost of the public weal. While such measures as these are before me, I cannot consent to divert moneys from the public schools, and cannot agree that the Territory is unable to take care of our common schools.

I am, sir, very respectfully,
CALEB W. WEST,
Governor.

Honorable Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I herewith return An Act for the Encouragement of Silk Production and Paying Bounties Therefor; also, An Act for the Encouragement of the Production of Sugar Beets and paying Bounties Therefor; and also, An Act to Encourage the Production of Canaigre and the Manufacture of Leather in the Territory of Utah, without my approval, for the following reasons:

No provision whatever has been made for the payment of the bounties provided for in these acts, and none can be made without increased taxation, and it appears that the measures have been passed with the expectation that they would not become law. An unwise and ill-advised effort has been made by the Legislature to economize in the expenses of the Territory, so much so that many of the Territorial institutions will suffer because of inadequate appropriations, if not be entirely suspended, and under such conditions it would seem, if it was intended by the House of Representatives or Council that these bills should be-

come law, that some provisions would have been made by which the bounties could be paid. Even if I approved of the legislation contemplated in these bills, a great wrong would be done by giving my approval, because the institutions that are so meagrely provided for would be robbed in order to meet the payments provided for in these bills, or persons who may engage in enterprises contemplated thereby would be misled and deceived because of the failure to supply the means for the payment of these bounties.

But, further, I do not believe these bills can be justified upon principle. The Supreme Court of the United States has expressly held that it is unjust and unlawful to force from the citizens at large a tax for the benefit of individuals, and that the imposition of a tax for the purpose of paying bounties is, in effect, taking private property without due process of law. I see no reason why the other industries of this Territory should be taxed for the purpose of supporting the three other industries mentioned in these bills.

Again, by act of Congress, the Territory is prohibited from enacting special laws. I deem these bills repugnant to that provision and in conflict therewith.

I am, sir, very respectfully,

CALEB W. WEST,

Governor.

Hon. Albion B. Emery, Speaker of the House of Representatives, Salt Lake City Utah:

Sir—Herewith I return, without my approval, A Memorial to the Congress of the United States Relating to the Bounty on Sugar: also, A Memorial to the Congress of the United States Relating to the Tariff on Lead; also, A Memorial to the Congress of the United States Relating to the Protective Duties on Wool.

Many reasons could be offered why these memorials ought not to be approved, but it will be unnecessary for me

to consider at length all the objections which are suggested to my mind, precluding me from approving them.

For years the people of the United States have been groaning under the burdens of excessive tariff. Not content with the high war tariff, Congress, dominated by the beneficiaries of this iniquitous system, has been made the instrument of oppression, thus increasing the burdens upon the many in order to swell the wealth of those who plunder under the authority of tariff laws.

At last the people, by an overwhelming vote, demanded that their petitions be answered and that they be relieved of these unlawful exactions; and in obedience thereto, the Wilson bill was formulated. The evils of high tariff are clearly discernible in our present environments, and present a stronger argument against the statements contained in the memorials than I could present. It would be taking a step backward if these memorials received my sanction and even endorsed as the views of the people of this Territory; and if the principles therein expressed even do prevail, it would be in contravention of the demands of a great majority of the United States and of the Territory of Utah. It cannot truly be said that the Wilson bill will operate disastrously to the industries mentioned in the memorials.

Indeed, the experience of the past and the views of the great political economists of the world, demonstrate that prosperity and permanent advancement will be inevitable fruits of a wise and judicious measure, such as the bill against which these memorials inveigh. It is a political heresy that prosperity is the handmaiden of high tariff. The McKinley bill, and all measures of a kindred nature prove the truth of this assertion.

I cannot agree with the statement contained in one of the memorials, that Congress pledged itself to a "permanent appropriation for a definite period of time." It is fundamental that the act of one Legislature is not binding upon succeeding ones. Neither do I concur in the statement that the wool industry has reached its present proportions as the result of tariff legislation; or that the material interests of the whole West demand the present retention of the present duty on lead.

Even were Congress to be influenced by the passage of these memorials, and accede to the demands therein

contained, I am not convinced that it would inure to the advantage of the industries alluded to.

Wealth and material prosperity come only when trade is untrammelled and unfettered by artificial legislation.

But a still greater objection is to be urged against the principle embodied in the memorials. This is a government of delegated and limited powers. It is a violation of the Constitution to tax the people for merely private purposes; it is unconstitutional and unjust to impose burdens upon the people other than are absolutely imperative to maintain the Government in an economical manner.

Protection, so-called, fails to protect; it despoils the many; it enriches the few. Bounties and tariffs are the crystalization of the doctrine of special privileges. These memorials ask for the enactment of vicious, discriminating legislation. They are pleas for the exercise of unauthorized power; they are a protest against wholesome, wise, intelligent, and needful legislation.

I cannot assent to them, and am compelled to return them unapproved.

I am, sir, very respectfully,
CALEB W. WEST,
Governor.

Hon. Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I return herewith, without my approval, A Bill for An Act to Prevent Officers of Territorial Institutions from Creating Deficits in Excess of Appropriations. I am in hearty sympathy with the objects of the bill, and would be pleased to approve the same, but I am confronted with the fact that the appropriations made for our institutions are so meagre that it now seems a foregone conclusion that the institutions must either be closed, deficits created, or further appropriations be made for them. Under all these circumstances I am convinced that the present laws upon the subject are stringent enough.

I am, sir, very respectfully,
CALEB W. WEST,
Governor.

TERRITORY OF UTAH,
Executive Office,
Salt Lake City,
March 8, 1894.

Hon. Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I have this day approved and filed with the Secretary of Utah Territory An Act Making Appropriations for General Purposes. There are many objections which can be urged against the measure, and which have appealed to me strongly as reasons why I should withhold my approval, but I have been reluctant, faulty as the bill is, to return it unapproved. It is my purpose to invite your attention to a prominent feature of the bill, and suggest that in dealing with this matter a great injustice has been done. I refer to the matter of appropriations for the general Territorial institutions, and particularly to the University of Utah.

Our educational system is founded upon the theory that the University stands at its head and centre. It is the summit to which all avenues in our school system tend.

From its portals come the teachers who perform such important functions in the growing State.

This bill deals unfairly with this most important institution. It seems to me that forty-five thousand dollars cannot maintain it for the ensuing two years. The report of the Chancellor and Board of Regents of the University would indicate that the leading educational institution must close and go down in defeat unless this Legislature provides an additional sum for its maintenance and support. I desire to fully impress you with the danger now threatening our University. It would be an ineffable disgrace to permit its doors to be closed. What answer can be made to our sons and daughters seeking higher educational walks if we permit the keystone to fall from the crowning arch of our public school system?

I earnestly call your attention to the report above alluded to, with the hope that, even at this late hour, you will not fail in what I conceive your duty impels you to do; and that you will make further provisions for the safety and perpetuity of the University of Utah.

What I have said regarding the inadequacy of appro-

priation for this institution applies with much force to the other public institutions of the Territory. It is a serious, if not an alarming, condition confronting them, and it is with no bright hope we may look to their future with this Appropriation Bill as the rock of their safety.

I am not unmindful of the fact that it is contended that the revenue of the Territory is insufficient for public purposes; and that is assigned as a reason for reducing the needful and imperative demands of public institutions. At the same time, by the passage of several bills now before me awaiting my action, it is undertaken to squander the public money as bounties to a few individuals, without regard to the interest or welfare of the masses of our people.

It is not the part of wisdom to cripple and destroy the public institutions of our Territory. This bill, in my judgment, will fail to preserve and fully protect them.

And your attention should be further directed to the fact that, inadequate as the appropriations are in this measure, no sufficient means have been employed or provided to meet them.

The acts carrying appropriations already approved require payments to be made aggregating \$516,035.00. The bounty bills would require, to meet the payments therein contemplated, an appropriation of at least \$60,000.00.

Our total revenue for the two years, under the present rate of taxation and valuation of property, will probably not exceed \$400,000.00. If this be true, there would be, if all appropriations made by the House and Council were approved, a deficiency of \$176,035.00. How this deficit would be met I am not advised.

If I had felt inclined to approve the several bounty bills passed by you, and forwarded for my action, I am met by the insurmountable obstacle that you have furnished no moneys to pay them, and discredited and dishonored and discounted Territorial warrants would be the inevitable result.

As stated above, if the revenue for the years 1894 and 1895 is but \$400,000 (and that is a liberal estimate) there would be a deficit of \$176,035, without taking into account

the further deficit sought to be created by you by the passage of measures giving bounties totalling at least \$60,000.

I am, sir, very respectfully,

CALEB W. WEST,
Governor.

Honorable Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I return herewith, without my approval, A Bill for An Act relating to Tuition in Certain Territorial Educational Institutions. My reason for so doing is, that the measure reached me at such a late hour, and while so many other very important bills were before me, that it has been absolutely impossible for me to consider the numerous objections which have been urged against the bill.

Honorable Albion B. Emery, Speaker of the House of Representatives, Salt Lake City, Utah:

Sir—I herewith return H. B. No. 147, entitled An Act to Encourage the Establishment of Certain Manufacturing Institutions Within the Territory of Utah, without my approval, for the following reasons: An Act of Congress, approved July 30, 1886, provides as follows:

Be it Enacted, etc., that the Legislatures of the Territories of the United States, now or hereafter to be organized, shall not pass local or special laws in any of the following cases, that is to say * * * granting to any corporation, association or individual, any special or exclusive privilege, immunity or franchise, whatever.

This bill, it seems to me, comes squarely within the letter of this act, and is prohibited by it.

Again, I think the discrimination in favor of certain industries is unfair and unjust to the great body of the people of the Territory.

CALEB W. WEST,
Governor.
